

Submitter: John Steen

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

We have been voting by mail for nearly 40 years. For nearly 40 years shut-ins, disabled, elderly and rural people have enjoyed being able to vote as easily as a city dweller who lives around the corner from the courthouse.

In that span of almost forty years have we had a problem with voter fraud? Has some renegade group of communists stolen an election from us honest and patriotic citizens? The answer is an emphatic "NO!"

If you want to disenfranchise some one like me, who lives 5 miles from the county courthouse by a road that is frequently closed by landslides, fallen trees or flooding, go ahead. I and my family and my neighbors will never forget that you who support this paranoid nonsense are the ones who are destroying our democracy.
