SB210

Senate Committee On Rules,

As an Oregon resident and voter, I am adamantly opposed to SB210. Making voting in-person the standard and removing or reducing voting by mail is a blatant attempt to suppress the vote.

There has been no credible proof of fraud in any of our elections and Oregon has consistently had higher turnouts during elections ever since instating vote by mail.

I do not support this in any way and would be ashamed to see it passed in order to kowtow to an administration that is openly lawless and biased. I am ashamed that it has even made it to committee.
