Senate Committee On Rules

Measure, Appointment or Topic:

SB210

The people of Oregon already voted years ago supporting mail in ballots for elections. There have been no major reported issues as far as I know, and changing back to in person voting would only make it harder for people to vote, such as the elderly and low income. I can sit at my table, read my voters pamphlet and try to make good decisions based on what I am reading.

Honestly, it is shameful to try and pass this bill against the will of the majority people.
