Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Hello.

I'm writing in to oppose this measure. Having lived all over the country over the course of my adult life, the current Oregon voting system is perfect. The only reason a public official would ever changing it is because they want to suppress voter turn out. Going to an In-person default system disenfranchises working class people and those that would otherwise have issues getting to the voting locations.

In a country already struggling with alienating voters and the public, this would be a huge step in the wrong direction.

Thanks.
