Colleen Wright

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Eliminating mail-in voting would significantly hurt voter turnout, especially in our most vulnerable communities: lower income, seniors, and disabled. I have multiple family members that earn minimum wage working in the service industry, and do not get paid time off, mail-in voting allows them to participate in our democratic process without an impact on their income or job. My parents-in-law are housebound seniors, neither is able to drive, and mail-in voting allows them to have their voices heard. I am begging representatives to vote no on this bill.
