Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Mail in voting in OR has been the standard for many years, making voting more accessible for all people. Workers, elderly, students, disabled, people with a lack of transportation, would be severely discriminated against if this legislation were to be ever. This is a deliberate attempt to make it more difficult to vote. The system in Oregon has worked for decades, why change it now? This proposal affects certain groups more than others and goes against every part of the constitution. We have a right to vote and the Oregon legislature should be working on efforts to make voting more accessible to every eligible Oregon voter.
