

Submitter:

Hannah Bowlen

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

It would affect people with disabilities, full time jobs, people with kids, and the elderly to make voting unaccessible by mail. People who cannot stand in line, people who work during voting times, people with kids who cannot wait in line would struggle to make time to vote. This would greatly impact the amount of people voting which would lessen our ability to see everyone's opinion on elections. If the only people who can vote are able-bodied and have the time to wait in line, we are not a true democracy.
