

Submitter:

Kelly young Young

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

My very first election was 1984. I remember it so well. I was so proud to walk into the PgE building in Woodburn and cast my vote. I never realized how important our vote was until we started noticing that our votes were being rejected, we knew family members getting duplicate ballots and watching the state I love go so far left. We need a fair voting system with measures to make sure that citizens get a vote by voting one day with ID. Please consider bringing back the option of voting in person for generations to come. We need our future to see the value of a constitutional republic.
