

Submitter: Jerry VanSickle

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

I support the measure. Many voters don't have faith in the voting system and this will help voters regain trust in the system. I assume people could still request absentee ballots. I use to always do vote by mail, but I moved out of state for a while and in Ohio I went in as well as my family and voted in person. It's a totally different patriotic experience. I believe everyone should experience it. Let's go back to voting in person and gain the publics trust and get people feeling more patriotic.
