SB 210 is a proposed bill that is a 'solution' looking for a problem. As a very concerned citizen and voter, I can clearly see that is nonsensical to suggest that mail-in voting is, in any way, a concern in Oregon when it comes to supposed "election fraud". The actual frauds are the sinister and callous GOP 'leaders' who have taken up the Trumpian 'cause', all based on false insinuations and outright lies. I am sick of it.

Please DO NOT fall into this trap . . . voter suppression efforts are all the rage right now, particularly by the extremists and pro-fascist movement in the GOP ranks. It is time to stand up to this ridiculous proposal and continue to make voting accessible and inclusive for Oregon voters. Vote by mail is efficient and raises voter participation significantly . . . if the GOP wants to win elections, let them win fairly by proposing laws that will actually benefit the populace, instead of proposing regressive and pro-fascist legislation that restricts voter rights.

Voting by mail works for all Oregonians. We have a great system . . . let's keep it that way!

Thank you!
