

Submitter:

Caroline Ajootian

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

In an ideal world, where voter intimidation and manipulation didn't exist, in-person voting is the gold standard. However, in the climate created by the Trump administration and supported by his acolytes, in-person voting is fraught with problems. From questioning — without proof — the integrity of voting machines, to casting unfounded accusations of election worker malfeasance, to downright intimidation, Trump and his supporters are undermining the foundation of our electoral process. Oregon's vote-by-mail system has worked virtually flawlessly. That the results, usually favoring Democrats, are not to the Trumpists' liking is no fault of the system. People are given the opportunity to vote and they vote for Democrats! Please vote against SB 210. It is not in the interest of Oregonians or democracy.
