Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

As a senior, I remember having to vote in person, the long lines standing out in our PNW rain showers, waiting for up to several hours to access my right to cast my vote. It was brutal trying to time my work, childrens activities, daycare etc just to cast my vote.

As now a caregiver for our most disenfranchised, an vulnerable population of seniors, an disabled this bill would almost completely stop their rights to vote. I vehemently oppose this bill, our current voting system provides excellent access for everyone to take their time, in the comfort of their own home to cast their ballot.

Please deny this severely limiting bill,

Mary
