

Submitter:

Jennifer Garrison

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

To whom it is under the consideration : I strongly oppose any change to our vote by mail system. This has made it easier and more available for all residents. A change back to in-person voting would cut off those votes that don't have the "luxury" of taking time off work or life to go stand in line to vote. We're cutting edge on the process. They want to squelch lower income - marginalized - disabled - homebound people from having a say in who runs our government. WE THE PEOPLE have a voice and we MUST be heard.

Thank you,

Jenny
