

Submitter: Les Winn

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

Vote by mail is the only way people do not feel they are being spied upon while voting. To go to a polling booth and cast a ballot is cumbersome for so many people. The elderly cannot stand for hours to be able to vote! If any republicans needed to stand in line for hours they would complain like crazy. But this is the way it is in real life. The GOP needs to grow a pair and realize that life is not a fairy tale and let Trump know that they will lose voters because this will affect not just the Democrats but also the constituents they supposedly are protecting.
