Committee:	Senate Committee On Rules
Measure, Appointment or Topic:	SB210

I have always mourned the old days when I could walk into a voting location and show my ID with my name and address. At that point a worker would find my name on a roster where I would sign in to receive my ballot. I would then walk into a private booth to vote. After that, I would come out of the booth to deposit my ballot in a box with another worker in attendance. Please bring these days back where I have more confidence in the voting results. Thank you.
