

Submitter: Paul Rostykus

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

Senate Committee on Rules,

I am adamantly opposed to SB210 which would end Oregon's long-established and very successful vote-by-mail law. I am not aware of any real or factual evidence of significant voter fraud with the current system, although I have heard a lot of rumors and false claims without any substantiation.

Vote by mail is convenient and much more user-friendly than the single-day, in-person voting as proposed in SB210 which would be at great risk of voting fraud.

Please do not pass SB210. Keep the current reliable, trustworthy and user-friendly vote-by-mail system which has been in place in Oregon for over 20 years.

Thank you

.
