

Submitter:	Troy Spence
On Behalf Of:	My household
Committee:	Senate Committee On Rules
Measure, Appointment or Topic:	SB210

We fully support ending mail in balloting and election day voting with ID. The only reason to oppose this measure is if you intend to cheat and don't care about cheating as long as you get the result you want. Mail in votes have a significantly higher adjudication rate due to all the chain of custody points of exchange, and opportunities for malicious intent. It's time to end it and restore trust to elections.
