Mail in voting is very beneficial. I am able to read over the candidates and measures to make an informed decision and take my time. I then submit my vote when I complete. I am a self employed person and if I don't work I don't get paid. In person voting would impose financial issues for me as the sole provider of my home. Not everyone has access to get rides to in person only. There are also issues for people who are ill and unable to leave the home.
