SB210

I am opposed to making in-person voting on the date of an election the standard method for conducting an election. I believe that in-person voting marginalizes and discriminates against various segments of the population, and restricts democracy. Meanwhile, the State of Oregon and the many other jurisdictions that have made vote by mail the standard method for conducting an election have done so for many years without jeopardizing the integrity of a single election. I would encourage those who support this legislation to produce evidence to the contrary.
