Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Oregon is a wonderful example of how voting by mail is a success. To change back to in-person voting is simply caving to politicians and their supporters who are determined to erode voting rights and make voting more difficult for people who don't fit a specific demographic. I urge you to preserve our current system and do everything you can to facilitate voting in the state. Our democracy is at great risk and this is just another attempt to destroy citizen participation.
