

Submitter:

Jessica Nawoichik

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

If this were to pass the impact would be enormous. As a health care professional, in order to do this with my extended work hours I would have to cancel and miss seeing critical patients. As someone who grew up in Oregon, vote by mail was the only way I could vote while out of state for school. I knew I would be moving back to the state and that the decisions would effect me and so it was critical that I vote. I strongly oppose changing from mail in votes to in person voting. Thank you for your time.
