Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Consider this, motor voter registered people who were not eligible to vote. Even knowing a person is ineligible to vote.....a state worker is still required to ask the question "Do you wish to register to vote"? If you don't believe it? Ask a person who knows policy at the DMV. You might be shocked! Also, know that the State of Oregon recognizes a "Mexico" voters card with more weight than a social security number presented by an American citizen. Don't believe me? Check it!

Real ID fever for flying? Why don't we put some validation procedures in place where we have a voters card, show up in person, prevent voter fraud or in rare cases ballot dumping or manipulation. Make voting important again. Don't be lazy and complacent. How much money could we save too? Some Oregon residents just toss the Mail in Ballot in the trash.
