Dana Hicks

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Voting by mail is important to me for making informed decisions because I can take the time to research issues and candidates before marking my ballot, rather than feeling stressed by having to vote in person like I used to. Voting by mail allows me, and likely others, to vote when it is convenient as I juggle family, work and other duties. My ballot can be checked through my registration and signature. This system works well - let's not change it.
