

Submitter:

Elizabeth Regan

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Please do not allowed this measure pass. Research shows that mail in fraud is extremely rare. The passing of this measure will deny the ability to vote to so many, especially those with chronic health conditions or disabilities, those who cannot afford to take time off work, and those without public transport available. Please do not take the practical ability to vote away from so many who need their voices represented.

Thank you.
