Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Oregon is the exemplar for free and fair elections in the US. Its integrity is unmatched. Arguments to the contrary are not concerned about safe and honest elections but rather about the number of people participating in elections. Voter suppression is the motivator here. The bill simply stands to keep people from voting. The irony that a bill purportedly about integrity actually is fueled by deceit is not lost on anyone. In this administration that is stripping citizens of their civil liberties, our representatives must work even harder to maintain, and then restore what was lost, our civil liberties.
