RE: I Oppose canceling Vote by Mail

I'm so disappointed that I am having to defend something I am so proud of. Oregon's Vote-by-Mail gives every registered voter the opportunity to exercise their right that was established in the constitution.

This allows the elderly, the sick, the very busy single mom, and the traveling professional all the same opportunity to have their voice heard. The margin of error is miniscule compared to established voting centers which are finding it more and more difficult to staff and keep people safe.

We are a shining example of "How to Vote" with well over the nations average for turnout election after election. Please protect ALL Oregonians the opportunity to vote-by-mail. This is only up for debate because people are threatened by our success. Don't let them change the fiber of who we are.
