Voting by mail has been our method for voting for more than 30 years! ...because even before Oregon instituted its official vote-by-mail process, our family had to request absentee ballots in order to cast our votes!

Working 12-hour shifts out-of-town on election day makes it absolutely impossible to vote in person -- we tried! Nor is it allowable to miss work or to leave work early in order to vote in person.

Oregon Vote-by-Mail has been such a safe, sensible, secure method for voting for more than two decades! It makes no sense and it doesn't solve anything at all to change it!
