

Submitter: John McPherson

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

If your goal is to disallow citizens of this country from exercising their right to vote, supporting this bill is a swell idea. At a minimum, the sponsor of this bill is an asshole. I served my country at the end of the Cold War as a Russian linguist and intelligence analyst. I've been held at gunpoint. I've been shot at. I do not support this measure. The person who wrote it up should be ashamed of himself and should resign.
