

Submitter: Alex Staben

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

Dear Senators of the Oregon Senate,

I urge you to oppose this attempt at voter suppression and repealing a long-time practice of Oregon voters. Requiring in-person voting will make it much harder for so many Oregonians including single parents, working Oregonians, students, disabled folks, rural Oregonians, among many others, who have to take time off work and travel far to wait in long lines. Mail-in voting has been common practice for years and more states should follow our lead. Oregon should not revert to outdated ways.

Please seriously consider the negative implications of reverting to in-person voting and vote NO on SB210. Oregonians are depending on you.

Alex Staben
