SB210

Mail in voting should be in all 50 states and there are multitude of reasons why.

Not everyone has the time, can afford the possible loss of wages, or has the physical ability to spend what could be up to a whole day, waiting in line to vote.

At home, you have the convenience of thoroughly researching candidates/measures and any questions you have. Drop boxes and sites are not prone to damage and we have an extremely low rate of voter interference in Oregon. There's no one bothering or trying to intimidate you when dropping your ballot off or mailing it in.

This is clearly a tactic to restrict our right to vote fairly and freely. We are using that right to say absolutely NOT, that this bill is ridiculous and should not be passed. Listen to your voters!
