Keep vote by mail as the standard method for conducting an election. Over the years between working and caring for my family, vote by mail is the only way that I have had time to really review my ballot thoroughly and get my ballot in on time. I do not have time to wait in a line to vote. Even if the state made Election Day a holiday, I would still have to care for my family and thus would not have the ability to wait in line to vote. Please keep vote by mail.
