

Submitter:

ELIZABETH DURANT

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

As a parent, faith leader, and former public school board chair, I strongly oppose this measure. Voting by mail reduces barriers to voting for working parents (like myself) and young adults, and makes it possible for many more people to participate in our elections. For our democratic process to function in a healthy way, we need as many people as possible voting. Limiting access to voting in person will only benefit those wealthy, out-of-state special interest groups who continue to interfere with and undermine our Oregon values of fairness, freedom and progress.
