Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

This is an unwarranted change that effectively could effectively lower the overall number of voters by limiting access for many Oregonians who do not have means to reach voting machines. Oregon is the first state which we have lived in that has offered this marvelous service to its citizens. A reversal of this process is an enormous step in the wrong direction. Our goal as a nation is to get our citizens to vote and exercise their voice and rights. Let's keep that our focus moving forward!
