Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Why would we ruin the best possible way to vote!?

We get our ballot automatically. We have time to read it and review the issues and candidates on our own schedule. I remember the old days, arriving at the polling station to find candidates or measures we'd never heard of and no time for research. Only an idiot would think returning to that is a good idea. Please vote no on this ridiculous measure.
