SB210

Mail-in voting is the easiest, fastest, most organized method of voting in the Nation. Making voting in-person only is a MAGA move, designed to make it as difficult as possible for people to cast their vote. People would have to take time off from work, organize rides to polling places, stand in lines, and deal with a myriad of other inconveniences in order to vote. What would be the cost to rent and maintain polling places? Rent or purchase machines? Pay someone to organize volunteers? Why go to all this trouble? The only reason is to make it harder for people to vote. You are contemplating taking away one of the most convenient tools of democracy, and I can't understand why. Other than it is in the Project 2025 mandate? Is this what you want to be known for? Submitting to an autocracy and sliding us backwards into fascism? Please. Do not pass this bill.
