

Submitter:

Laura Jane Garner

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Taking away our right to vote by mail in Oregon is just another attempt to suppress voters. To make voting in person on the day of election the standard would only create opportunity for those who wish to intimidate voters to do so and influence elections by unlawful means and create more obstacles for registered voters. This is an attempt made by a loud majority to quiet those who wish to live in a democratic state. Please, do not take our ability to vote, do not make it more difficult, this serves only those who do not care about equality.
