Angela Michtom

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

In all the years we have had mail is voting the level of fraud has been almost nonexistent. There is a paper trail of the ballots. I love having the time to really read the ballot measures, research things have questions about and then vote. But know it makes me a more informed voter. It feels like this bill is a step backward and attempts to solve a problem that does not exists. Quit wasting time and money on this issue and focus on things in the state that need improvement. Please oppose this bill.
