Measure, Appointment or Topic: SB210

This is outrageous! Oregon has successfully had mail-in voting for decades.

What possible rational justification can be made to eliminate it?

It has ensured that Oregon residents could take the time to evaluate the candidates and issues and vote at a time it is appropriate for them. It ensures a bigger voter turnout and representation.

The reason for eliminating mail-in voting is to make voting access more difficult for people. The next step will be few polling locations if mail-in voting is eliminated.

HANDS OFF our mail-in voting! Why do you want to destroy our democracy?
