Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Hello,

I oppose SB 210. The opportunity to vote by mail increases voting and works well in our state. Personally, I appreciate the opportunity to research the issues and the individuals who are running for office, then vote at home. It is way more time efficient while avoiding emissions and traffic that would be caused by people needing to drive to get to polling stations. It's an effective system that supports democracy. If it's not broken, leave it alone. Thank you.
