

Submitter: Zach Deets

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

I strongly oppose SB210 and fully support mail-in voting. Voting from home allows me to fully research candidates and their positions and make truly informed decisions with my vote.

It is also my strong opinion that the proposition of this bill is rooted in xenophobia and incorrect concerns and assertions of voter fraud that simply are not there. Instead of continuing to try to subvert the vote of the people to manipulate outcomes, politicians should instead run on platforms that appeal to their voters. No on SB210!

Zach Deets
