Senate Committee On Rules

Measure, Appointment or Topic:

SB210

As a long time voter in the state of Oregon, I am vehemently opposed to any bill that goes against a proven successful mail-in voting system. There's no reason to advance this bill further, except that it's from a political party that's strongly opposed to individual rights, individual identity, and anything that can be seen as liberal/left. Mail-in voting has been shown to work, has increased voter turnout in historic numbers, and has no real-world negatives from supposed voter fraud, whereas in-person only voting definitely goes hand-in-hand with voter suppression, time and again proven to be a problem.

I strongly stand against this bill as a 19 year Oregon resident, a Native person, a member of the LGBTQIA+ community, and overall a person that believes in body autonomy and religious freedom. I vote NO.
