Vote by mail is a system that works for Oregonians. It has consistently enabled a higher than national average voting numbers. I remember when we were required to vote in person long lines after work it was an old antiquated system. The new system allows that all the Oregonian's that are eligible to vote have the opportunity to do so I know for myself with my friends and my family, this convenience has allowed us to have our voices heard. Please don't change your system that has worked that continues to work. It is unnecessary to even consider changing it free fair elections are what Oregonian stand for. I'm proud of our current system. It's taking years to perfect leave it alone.
