

Submitter: Randall Hand

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

As a 92yr old voter it would be very difficult for me to get to a traditional election site. Also I have some difficulty walking and standing. I know of many others like me who are also responsible and loyal voters who object to this in person voting. We see no evidence that any problems are resulting from our current method of voting. The only reason for this change seems to be political disenfranchisement and should be defeated.
