Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

While mail-in voting achieved it's goal of making the voting process easier for citizens, it has also made it easier for fraud to negatively affect Oregon's elections. This legislation is a reasonable corrective that will help ensure that every Oregon citizen's vote counts by preventing non-citizens from voting and by putting up barriers to fraudulent activity. Our current system is not adequately auditable and needs to be reformed. Any Oregonian that is legitimately concerned about the integrity of our elections will support this bill.
