On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

Requiring in-person voting as the primary method of voting greatly reduces the accessibility for Oregonians to vote. It creates barriers that currently don't exist with the mail-in-voting process, and will greatly reduce the number of Oregonians participating in elections. It would also impact businesses as it would require employers to give employees time off to go in-person to vote, which will most certainly have long lines and wait times.
