

Submitter: Anna Snyder

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

Voting by mail is such an important part of our state's elections, it is offensive that any one of our elected representatives would even consider doing away with it. Does the state representative who introduced this bill forget the number of disabled and elderly constituents he serves? Or does he just not care enough to hide his disregard for them? Vote by mail got him elected and he should remember that.
