I was born in Oregon in the 80's and have always resided in the state. The first general election I could vote in was the year 2000. I am now in my forties and in every election of my life I have never voted any other way but mail in ballots. I'm a big fan of mail in voting for many reasons including the ability to mull over my ballot and look up issues and candidates so I can make as informed of a decision as possible in the convenience of my own home. I always drop my ballot in a ballot box after taking my time to fill it out on my own time. As a business owner I am very busy and it's so easy and convenient to participate in the elections. Love it!
