

Submitter: Mallory Tyler

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

A democracy thrives on inclusivity, and offering options like early voting, mail-in ballots, and in-person voting removes barriers that might otherwise prevent people from casting their votes—such as work schedules, disabilities, or geographic challenges. By making voting more accessible, multiple methods strengthen representation, enhance voter turnout, and ensure that the democratic process reflects the will of the people more accurately.
