Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I vehemently oppose SB 210. Any Senators or Representatives sponsoring or supporting this bill are anti-democracy. Our country is staggering in overwhelm of the current administration in Washington D.C.'s relentless anti-democracy attacks. I'm shocked that in Oregon even republican representatives would consider taking us backwards, away from a system that works so well. We need people to be able to vote easily. Mail-in ballots allow people who work long hours to vote, people who often would have a very hard time voting - and, yes, who is that? The poor, of course. The hard-working, day in and day out people of our country. Efforts against mail-in voting is a movement against the working class having their voice in our democracy. Vote No.
