

Submitter:

Patrick Anderson

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

As a resident of Oregon for nearly ten years I have constantly felt mail in ballots are unadvisable. Twice in the past I have voted, and it was not until after the election the site updated to show I needed to verify my identity for my vote to count. This is not an issue with in person voting as you show your identification at the voting location in order to vote. I feel this is one of the Only secure ways to vote with minimal risk of fraud, or as in my case, my vote just not being counted at all.
